

Bilag 5: Resultat af vomprøveanalyser - frekvens

Denne liste viser resultatet af vomprøveanalyserne. Tallene angiver, i hvor mange vomprøver de enkelte plantestumper/andre ting forekommer. Der er anvendt koder fra henholdsvis bilag 1 og 3 til at beskrive de enkelte stumper i vomindholdet. For de enkelte områder er ligeledes angivet ANTAL, som viser hvor mange vomprøver, der er analyseret fra de enkelte områder i de enkelte måneder. Variablen ALL angiver det totale antal vomprøver for hele året. Listen er sorteret alfabetisk.
